DETAILED ACTION

Election/Restrictions

1. In response to the election requirement set forth in the office action mailed October 26, 2010, Applicant elected **Species VI** without traverse and declares that **claims 154-189** read on this embodiment. However, examiner disagrees on claims classified into species VI, and object on the election and demands a re-election by correction. Notice that Species VI (Fig.16 and 17) has either packet multiplexing of first to Nth image encoding data and FEC data, or packet multiplexing of first to Nth image encoding data, and interleaving/time difference of multiplexing the above with FEC data.

Regarding **claim 157**, it recites "... at least a part of the data from said first through Nth encoded data transmission means being transmitted with time difference or interleaving..", which does not belong to Species VI, rather belong to Species I (Fig.1).

Regarding **claims 159-161 and 188**, they depend on claim 157 and therefore they do not belong to Species VI.

Examiner maintains that **claims 157, 159-161, and 188** should not be taken as Species VI.
